*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

81-83 Webster St. is located on a 2,440 square-foot corner lot on the west side of Webster Street between Waller and Germania Streets. Built circa 1893, 81-83 Webster St. is a two-story, wood-frame, two-unit, multiple-family property designed in the Stick/Eastlake style. The rectangular-plan building, clad in rustic drop siding, is capped by a flat roof. The primary façade faces east along Webster Street and is three bays wide. The first story features a chamfered corner window in the left bay with paired wood windows and fronted by cast-iron cresting at the sill level. The central bay contains one wood window capped by a bracketed hood, and the right bay contains a recessed entryway accessed via wood steps from the street level. The entryway is paneled and contains two wood, paneled, and glazed doors with an entablature, transoms, and molded surrounds. The second story is characterized by a squared corner bay window overhanging the first story in the left bay, and single wood windows in the middle and right bays, both capped by bracketed hoods. The secondary façade faces south along Germania St. and is five bays wide. All windows on both facades are one-over-one, double-hung, wood-sash. The building appears to be in good condition.
