*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

73-77 Webster St. is located on a 1,950 square-foot corner lot on the west side of Webster Street between Hermann and Germania Streets. Built in 1907, 73-77 Webster St. is a three-story, wood-frame, three-unit, multiple-family building designed in the Classical Revival style. The rectangular-plan building, clad in flush and rustic siding, is capped by a flat roof. The primary façade faces east along Webster St. and is two bays wide. The first story features a paneled recessed entryway containing wood doors with molded surrounds and transoms in the left bay. There are windows in the end bays with molded surrounds. The upper two stories are characterized by a chamfered bay window in the left bay and a six-sided bay window at the northeast corner of the right bay. The façade is capped by denticulate molding and modillioned cornice. The secondary façade along Germania Street is ten bays wide and faces north. On this elevation there is a central raised recessed entryway, and the windows follow the same pattern and exhibit the same materials found at the primary elevation. At grade there is a pedestrian entry and seven contiguous garages.

The building appears to be in good condition.
