The Way It Was:

Planning Code Sections 209.3(f), 217.3(e), and 890.50(b) define child care facilities. Each zoning district has different controls for adding a new child care facility.

However, there are no controls in the Planning Code that regulate the closure or change of use of a child care facility.

The Way It Is Now:

These controls apply to any child care facility that has 13 or more children.

If a child care facility proposes a change in use, then it must obtain a Conditional Use Authorization from the Planning Commission.

These interim controls are in place for 18 months.
