*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

284 Page Street is located on a through lot measuring 27.5' x 120' on the north side of Page Street between Laguna and Octavia Streets. Also located on this parcel is 281-287 Lily Street. Built circa 1875, 284 Page Street is a two-story-over basement, wood frame, single-family residence designed in the Italianate style. The rectangular-plan building, clad in shiplap wood siding, sits on a reinforced concrete perimeter foundation and is capped by a flat roof. The primary façade faces south and is two bays wide. The typical fenestration consists of thin, one-over-one, double-hung, wood-sash windows capped with cartouche motifs. In the right bay of the raised basement is an arched, one-over-over, double-hung wood-sash window with an arched wood surround and metal security grill. The left bay of the first floor features a recessed entry porch with a terrazzo staircase and projecting portico detailed with a stepped archway supported by Corinthian columns and an entablature with a sculpted frieze, diamond motifs, dentils, and a balustrated cornice with turned finials. The interior of this entry portico features wood paneling and a single-light glazed wood door with an arched transom. Above this portico on the second floor, is a single window detailed with an ornate molded surround, cartouche motifs, and a window hood. The right bay features a broad two-story, semi-hexagonal bay window with four double-hung wood sash windows with spandrel panels, engaged columns, and entablatures with ornamental friezes, dentil molding, decorative brackets, and sculpted cornices. The primary façade terminates in a broad ornate entablature distinguished by sculpted panels, dentil molding, decorative brackets, and a sculted, projecting cornice. This entablature is capped by a chamfered hipped parapet that continues to the east elevation. The building appears to be in good condition.
