*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

260 Page Street is located on a 30' x 120' through lot on the north side of Page Street, between Laguna and Octavia Streets. Built in 1926, 260 Page Street is a three-story, wood frame, nine-unit multiple-family residential building designed in a modified Classical Revival style. The rectangular-plan building, clad in yellow brick on the primary façade and horizontal drop wood siding on the secondary façades, is capped by a flat roof. The primary façade faces south and is three bays wide. The typical fenestration consists of double-hung wood sash windows with multi-light upper sashes and molded surrounds. The first floor contains a wood-paneled garage door in the left bay; a recessed entry porch in the center bay; and paired four-over-one double-hung windows. The recessed entry porch features an ornamental metal security gate and a single-light glazed wood door with molded surrounds, sidelights, and a transom. The upper two floors are characterized by two-story semi-hexagonal bay windows in the left and right bays, and a metal fire escape in between them. The primary facade terminates in an entablature detailed with dentil molding and a shallow box cornice. The building appears to be in good condition.
