*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

550 Fell Street is one of two properties located on a 27.5' x 120' lot on the north side of Fell Street between Buchanan and Laguna Streets. The second property is addressed as 553 Linden St (see DPR A form for 533 Linden Street). Built in 1900, 550 Fell Street is a 3-story, wood frame, 15-unit apartment building designed in the Mediterranean Revival style. The rectangular-plan building, clad in brick on the first story and stucco on the upper stories, is capped by a flat roof. The primary façade faces south and is 2 bays wide. The raised basement story has two awning sash with flared lintels in the right bay. The left bay of the first story features a flattened gothic brick arch with quoins leading to a recessed, paneled entry porch. The porch shelters a wood, glazed door with wide sidelight and transom. In the right bay, there is a three-part window with a quoined brick surround and double-hung, wood windows with multi-light top sash. The second and third stories have chamfered bay windows with hipped roofs clad in red clay tile in both bays. The bay windows have double-hung vinyl sash with wood stained glass and plain glass transoms. The primary facade terminates in a false parapet with an open oval cut out in the center. Side elevations are clad in drop wood siding. The building appears to be in good condition.
