*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

556-558 Fell Street is located on a 27.5' x 75' lot on the north side of Fell Street between Buchanan and Laguna Streets. Built in 1890, 556-558 Fell Street is a 3-story, wood frame, multiple family building containing 3 units designed in the Italianate style. The rectangular-plan building, clad in drop wood siding, is capped by a parapeted Y-form roof. The foundation is not visible from the street. The primary façade faces south and is 3 bays wide. The right bay is an enclosed alley leading to a unit entrance in an offset rear block. The ground story features an entrance with bracketed door hood in the right bay, a garage in the middle bay and wood steps with turned balustrades in the left bay. The steps lead to the main entrance in left bay of the first story. The recessed entrance has Ionic pilasters and a bracketed door hood. The building has two entrances with paneled wood doors with transoms. The middle bay has a chamfered bay window with double-hung, arched wood sash; spandrel panels, Ionic colonnette surrounds; frieze panels, and a cornice on the second and third stories. The third story has a flush window in the left bay with double-hung, arched wood sash; Ionic pilaster surround; and bracketed hood. The primary facade terminates in a parapet with a paneled frieze and bracketed cornice. The building appears to be in good condition.
