*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

566 Fell St. is located on a 55' x 120' through-block lot on the north side of Fell Street, between Buchanan and Laguna Streets. Built in 1925, 566 Fell St is a 3-story, wood frame, 16-unit apartment building designed in the Mediterranean Revival style. The U-plan building, clad in brick and drop wood siding, is capped by a flat roof. The foundation is not visible from the street. The primary façade, clad in yellow and painted brick, faces south and is 5 bays wide. The first floor features sealed square window openings in the first three bays and a glass block window in the fourth bay. The fifth bay contains the main entrance, sheltered inside a recessed entry porch. The building has a single entrance with a glazed wood door with sidelights. The upper two stories are characterized by three-part windows in the first, second, and fifth bay composed of a center wood pivot sash, side casement sash, and divided transoms. The three-part windows have turned spindles on the inner jambs. The remaining bays have paired wood casement sash with divided transom. The primary facade terminates in a frieze with cherub's head and urn panels, anthemion molding, dentils, and an egg and dart cornice. Side elevations are clad in drop wood siding. The building appears to be in good condition.

***P3a. Description, continued.**

The secondary façade faces Linden St., clad in stucco, faces north toward Linden Street and is 5 bays wide. The first floor features an entrance with flush wood door with8-light, half-length sidelights in the left bay. The third and fifth bays have 6-over-1, double-hung, wood windows, while the fourth bay has a garage. Two louvered vents are set asymmetrically across the façade, above the level of the major envelope openings. The upper two stories feature semi-hexagonal bay windows in the first, fourth, and fifth bays with 6-over-1 and 8-over-1, double-hung, wood sash. The remaining bays have single, flush windows with 8-over-1, double-hung, wood sash. The façade terminates in a plain cornice. Side elevations are clad in drop wood siding. The building appears to be in good condition.
