*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

555-557 Linden Street is located on a 45' x 28' lot on the south side of Linden Street between Laguna and Buchanan Streets. Built in 1890, 555-557 Linden Street is a 2-story, wood-frame, multiple-family dwelling designed in the Italianate style. The rectangular-plan building, clad in wood shiplap and vinyl siding, is capped by a gable roof. The foundation is not visible from the street. The primary façade faces north and is 2 bays wide. The left bay of the first story features a gated, recessed porch with corner brackets and panels set above the opening. The porch shelters two entrances fitted with glazed and paneled wood doors. The right bay of the first floor features paired one-over-one, double-hung, metal-sash windows with a cornice cap. A simple, denticulated cornice separates the first and second stories. The right bay of the second floor features a bay window with a hip roof. The bay window is composed of fixed, metal-sash windows on the side faces and two, one-over-one, double-hung, metal-sash windows on the center face. The left bay features a single one-over-one, double-hung, metal-sash window with a spandrel panel and cornice. The primary façade terminates in a parapet with an entablature composed of a denticulated architrave, paneled frieze, and a bracketed projecting cornice. Side elevations are clad in vinyl siding. Metal chimney vents rise from the west edge of the roofline, near the façade. The building appears to be in good condition.
