*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

47-49 Germania St. is located on a 1,245 sq. ft. lot on the south side of Germania Street, between Webster and Fillmore Streets. Built in ca. 1905, 47-49 Germania Street is a 2-story, wood frame, 2-flat, multiple family residence designed in the Italianate style. The rectangular-plan building, clad in wood channel siding, sits on a reinforced concrete perimeter foundation and is capped by a gable roof. The primary façade faces north and is 4 bays wide. The building sits back from the property line and sidewalk. The raised basement story has two below-grade entrances in the second bay, accessed via a short flight of concrete stairs. The left bay of the first floor contains the main entry, recessed inside a paneled entry porch. The porch has a door hood with fluted scroll brackets and concrete steps with modern iron railings. The building has two entrances with paneled wood doors and transoms. A grouping of four, contiguous, narrow, double-hung, wood-sash windows with entablature surround are set opposite the entrance. The second floor has a single, undivided, wood double-hung window in each bay with entablature surrounds. The primary facade terminates in a paneled frieze and bracketed cornice, topped by a centered triangular parapet. The building appears to be in good condition and contributes to the Hayes Valley Residential Historic District.
