*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

175-179 Haight Street is located on a 21.5' x 87.5' lot on the south side of Haight Street, between Octavia and Laguna Streets. Built in 1907, 175-179 Haight Street is a three-story, wood frame, three-unit, multiple-family residential building designed in the Classical Revival style. The rectangular-plan building, clad in flush wood siding, sits on a reinforced concrete perimeter foundation and is capped by a flat roof. The primary façade faces north and is two bays wide. The typical fenestration consists of double-hung wood-sash windows with molded surrounds. In the left bay of the first floor is a recessed entrance containing two multi-light glazed wood doors, and a shallow projecting portico with an arched pediment and brackets. The right bay of the first floor features a set of paired windows with a diamond-patterned upper sash. The left bay of the upper floors features single windows set between floors on an interior staircase. The third floor window has a paneled entablature and an arched pediment. In the right bay of the upper two floors is a two-story semi-hexagonal bay window with ornamental brackets, an applied cartouche ornament, and continuous sills and cornices. The primary facade terminates in an entablature that features swag motifs in the frieze, dentils, scroll brackets, and a projecting cornice. The building appears to be in good condition.
