*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

148-152 Fillmore Street is located on a rectangular lot on the east side of Fillmore Street between Waller and Germania Streets. Built ca. 1905, 148-152 Fillmore Street is a 3.5-story, wood-frame, set of 4 Romeo flats designed in the Classical Revival style. The rectangular-plan building, clad in flush board and shiplap siding, is capped by a gable roof. The primary façade faces west and is 3 bays wide. The first and third bays of the first story feature garages with glazed, paneled, double-leaf garage doors, while the central bay features a gated entrance to a central full-height interior staircase. The central staircase has a rounded second story landing with decorative iron railing and ends in an arch with palm frond and wreath ornament on the spandrels. The units each have a paneled, wooden doors. The outer bays of the second and third stories have semi-hexagonal, one-over-one, double hung wood-sash bay windows with paneled spandrels and an intermediary cornice. The gabled half story is separated from the lower stories by a frieze, cornice with egg and dart molding and modillions, and scroll end brackets. The half story has a centered pair of one-over-one, double-hung, wood sash windows with dentil cornice. The gable ends in a cornice with dentils and modillion. The building appears to be in good condition and contributes to the Hayes Valley Residential Historic District.
