*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

136-146 Fillmore Street is located on a rectangular lot on the east side of Fillmore Street between Waller and Germania Streets. Constructed in 1911, 136-146 Fillmore Street is a 3-story, wood frame, 6-unit residential-over-commercial building designed in the Classical Revival style. The rectangular-plan building, clad in channeled siding, sits on a reinforced concrete, perimeter foundation and is capped by a flat roof. The primary façade faces west and is 5 bays wide. The first floor features three storefronts clad in black ceramic tile. Two occupy the three left bays, while the third occupies the right-most, or fifth, bay. All storefronts have metal-frame, plate glass windows and recessed, glazed, wooden doors beneath a continuous transom with wood awning windows. The entry to the upper residential stories is in the fourth bay in a gated recess. The entry is shaded by a door hood mounted on scroll brackets. The upper stories have semi-hexagonal bay windows in the first, third, and fifth bays. The central window on the second-story bay windows has a surround composed of colonnettes and an entablature with garland frieze. The center window on the third-story bays have quoined surrounds. The bay windows have double-hung, wood-sash windows with multi-light top sash and undivided bottom sash. The second and fourth bays on the upper stories have rectangular wood awning windows between stories. The elevation terminates in a continuous architrave molding, wide frieze, dentils, and modillion cornice. The building appears to be in good condition and contributes to the Hayes Valley Residential Historic District.
