*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

541-547 Linden Street is located on a 28' x 55' lot on the south side of Linden Street between Laguna and Buchanan Streets. Built in 1895, 541-547 Linden Street is a two-story, wood-frame, multiple-family dwelling containing 4 units designed in the Italianate style. The rectangular-plan building, clad in drop wood siding, sits on a reinforced concrete, slab foundation and is capped by a gable roof. The primary façade faces north and is 4 bays wide. The first story features short flights of wood steps with turned balustrades in the left and right end bays leading to unit entrances. The entrances are fitted with paneled wood doors with transoms, paneled surrounds, and shallow, bracketed, flat hoods with dentils beneath the cornice line. Barred, four-over-four, double-hung, wood-sash windows with shallow bracketed hoods are set in the center bays, adjacent to the entrances. A long, wood staircase with turned balustrade running parallel to the façade begins near the left first-story entrance and leads to a full-length landing with identical balustrade on the second story. The second floor has the same door and window arrangement found on the first floor. The second-story entrances have bracketed gable door hoods with dentils and the windows have the same sash and architectural decoration as the first story. The primary façade terminates in an entablature composed of a paneled frieze with dentils beneath a bracketed, projecting cornice. A paneled parapet with molded coping with higher center panel rises above the cornice line. The building appears to be in good condition.
