*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

289-291 Lily Street is located on a 27.5' x 57.75' lot on the south side of Lily Street, between Octavia and Laguna Streets. Built circa 1895, 289-291 Lily Street is a three-story, wood frame, two-unit multiple-family residence designed in a simplified, flat-front Italianate style. The rectangular-plan building is clad in shiplap wood siding and is capped by a flat roof. The primary façade faces north and is two bays wide. The typical fenestration consists of one-over-one vinyl sash windows on the second floor, and vinyl-sash sliders on the third floor. The left bay of the ground floor features a two-story recessed entry porch demarcated by a simple bracketed door hood. This entry porch features a metal security gate, wood and concrete staircase, and two two-light glazed, two-panel wood doors with transoms. The right bay of the first floor features a multi-panel wood garage door. Above, in the right bay of the second floor are two individual windows with flat-panel surrounds and bracket ends. The third floor features a three-part window grouping in the left bay, and slider windows in the right bay. All windows on the third floor feature vinyl-sash transoms. The primary facade terminates in a tall false-front parapet with an angled projection, which is articulated with an entablature with spandrel panels, brackets, and a projecting cornice. The building appears to be in good condition.
