*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

380-382 Lily Street is located on a 25' x 38' lot on the north side of Lily Street, between Buchanan and Laguna Streets. Built in 1895, 380-382 Lily Street is a three-story, wood frame, two unit multiple-family residential building designed in the Classical Revival style. The rectangular-plan building, clad in broad horizontal drop wood siding at the base and narrow shiplap wood siding on the upper floors, sits on a reinforced concrete perimeter foundation and is capped by a flat roof. The primary façade faces south and is two bays wide. The typical fenestration consists of one-over-one, double-hung, wood-sash windows. The first floor contains a gated, recessed entry porch flanked by Corinthian pilasters and a simple entablature. This entry porch contains two wood doors with molded surrounds and transoms. The right bay of the first floor features a three-part window with molded surrounds. The upper floor is characterized by two semi-hexagonal bay windows located in each bay. This bay window is adorned with a sculpted base, continuous wood sills, and intermediary cornices. The primary facade terminates in a wide entablature, articulated with dentils, egg-and-dart molding, three large scroll brackets, and a projecting cornice. The building appears to be in good condition.
