*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

180-184 Haight Street is located on a 30' X 76.6' lot on the north side of Haight Street, between Laguna and Octavia Streets. 180-184 Haight Street is a three-story, wood frame, three-unit multiple-family residence designed in the Stick/Eastlake style. The rectangular-plan building, clad in horizontal drop wood siding, sits on a reinforced concrete perimeter foundation and is capped by a flat roof. The primary façade faces south, is two bays wide, and features fenestration composed of double-hung wood-sash windows with molded surrounds. The left bay features a three-story box bay window capped by a shingled pent roof and adorned with brackets, bracket extensions, spandrel panels, dentils, intermediary cornices, a sunburst motif, squared transoms (second floor), arched transom (third floor), and other decorative moldings. The entrance is located in the right bay of the second floor and is accessed through a flight of wood stairs with turned balusters. The recessed porch is demarcated by an ornate portico supported by turned posts, and contains two glazed wood doors with molded surrounds, sculpted panels, and transoms. Above the porch is a pair of windows with arched transoms, sculpted spandrels, and a triangular pediment with sunburst motif. The primary facade terminates in an ornamental frieze with panel molding, brackets, molded cornices, and a shingled pent roof. The building appears to be in good condition.
