*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

536 Linden St. is one of two properties located on a 27.5' x 120' through-block lot on the south side of Hayes Street, between Laguna and Buchanan Streets. The second property is addressed at 633-639 Hayes Street. Built ca. 1885, 536 Linden Street is a 2-story, wood frame, multiple family residence containing 2 units designed in the Italianate style. The rectangular-plan building, clad in wood shingle siding, is capped by a flat roof. The foundation is not visible The primary façade faces south and is 3 bays wide. The first floor features a centered entrance recessed inside a paneled entry porch. The porch opening has a paneled pilaster surround. The entrance is fitted with a glazed, paneled wood door with arched transom. The end bays feature paired, arched, double-hung wood sash with paneled surrounds and a bracketed corniced with center pediment. A wood staircase with square column posts and open iron railings runs parallel to the elevation beginning at the left side of the building. The staircase ends at a landing at the center of the second story, and accesses a centered, recessed entrance to the second-story unit. The entrance has a paneled surround and bracketed door hood and is fitted with a glazed wood door with arched transom. The end bays have paired windows identical to those on the first story. The elevation ends in a paneled frieze, bracketed cornice, and tabbed parapet. The building appears to be in good condition.
