*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

497 Oak St. is located on a 38' x 40' corner lot on the south side of Oak Street, between Laguna and Buchanan Streets. Built circa 1910, 497 Oak St is a 3-story, wood frame, residential-over-commercial building designed in the Queen Anne style. The rectangular-plan building, clad in flush wood and wood shiplap siding, sits on a reinforced concrete, perimeter foundation and is capped by a hip roof. The primary façade faces west on Buchanan Street and a secondary elevation faces north on Oak Street. The primary façade is 3 bays wide. The first floor is clad in shiplap siding and features a corner storefront with angled, corner entrance. The entrance has double-leaf, glazed wood doors beneath a transom and sealed storefront windows on both elevations with plexi-glass transom on the Oak Street elevation. The remaining two bays of the Buchanan Street elevation feature a recessed entrance with flush wood door and a recessed, rear commercial entrance with a similar door. The upper stories is clad in flush wood siding and features rectilinear bay windows on brackets in the end bays. A cornice hood with brackets connects the bottoms of the two windows. The bay windows have double-hung, wood sash with spandrel panels and an intermediary cornice at the second-story level. The third story windows (continued)

P3a. Description, continued.
have dentil architraves, modillion cornices, and pedimented gable roofs with a Medusa head ornament and vine infill. The center bay has a small fixed window on each story. The first story of the Oak Street elevation features the storefront in the left bay. The upper stories of the elevation have bay windows in the end bays identical to those on the primary elevation. The center bay has paired, double-hung, wood windows on both stories. The second-story windows have an entablature cap with centered pediment. Both elevations end in an entablature with dentil architrave and modillion cornice. A hipped dormer is centered on the Oak Street roof slope and has two wood pivot sash. The roof is clad in asphalt shingles. A plastered chimney is set on the west slope. The building appears to be in good condition.
