

Market Octavia Citizen Advisory Committee Motion

Octavia Boulevard Commemorative Project Funding Reallocation

MOTION NO.: 2020-11-16-02.

ACTION: The Market Octavia CAC remains strongly committed to a permanent commemoration of the impact of freeway revolts and the Central Freeway and its removal on the surrounding area. In order to further this work, we approve a reallocation of already budgeted monies to fund an artist/architect partnership to create 2-3 interpretations of the community outreach work that is already recorded on the website; to fund grant writing in order to develop a more secure funding stream for a permanent installation; and to fund Increased outreach through social media, the project website or other channels to ensure that an informed and engaged community can decide which commemoration option presented will be selected. The CAC will continue to closely monitor these funds to ensure they are being used effectively to move forward and realize a commemoration in a timely manner.
