

Market Octavia CAC Meeting

September 2023

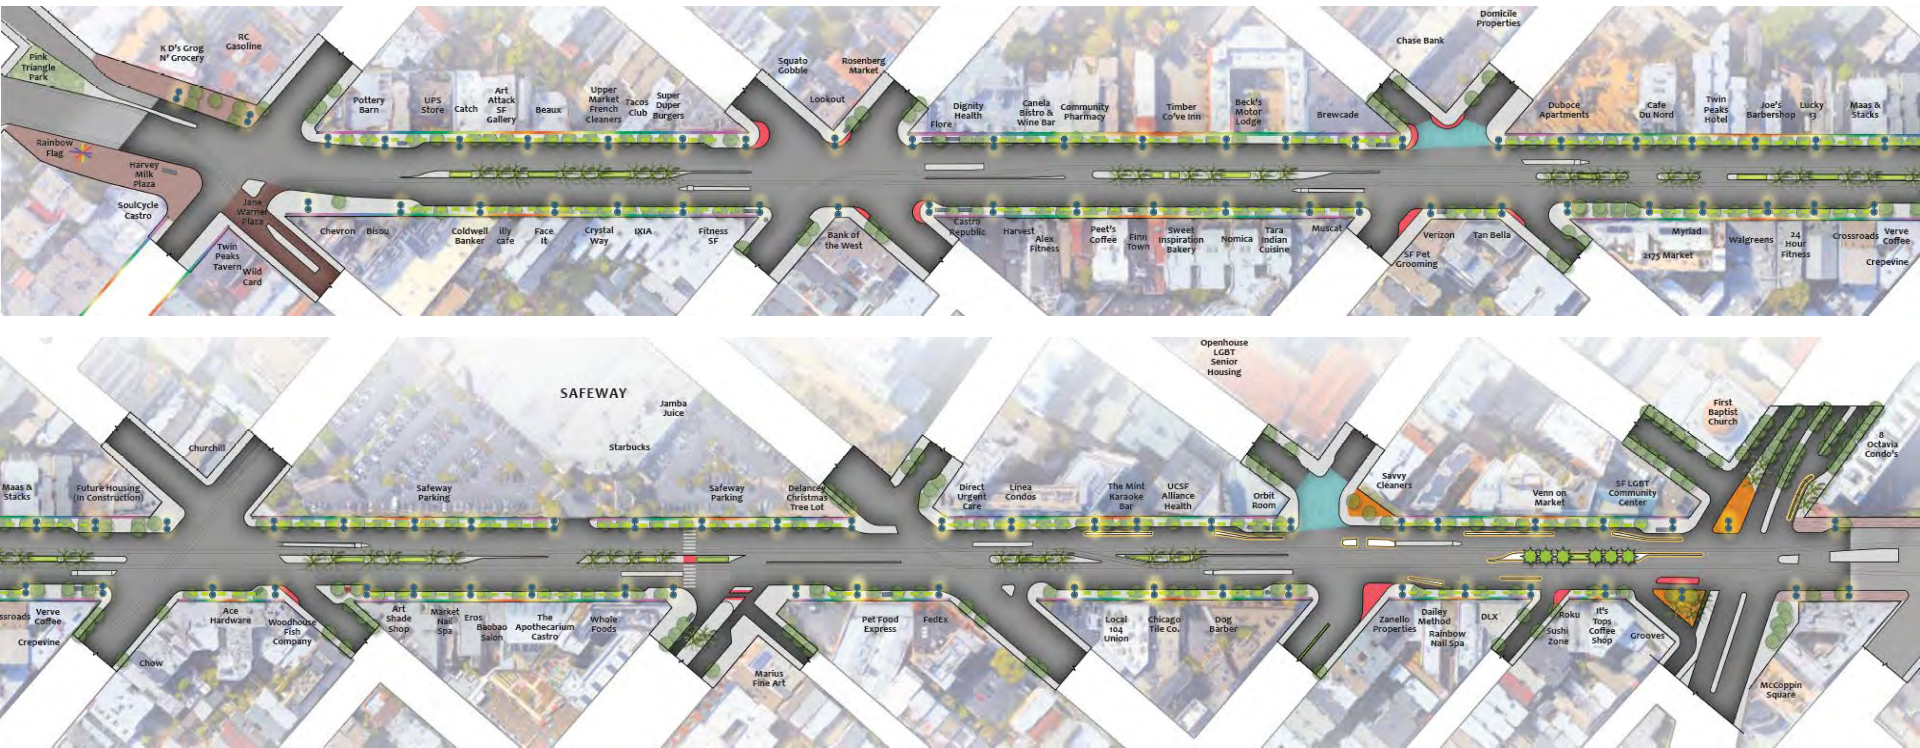

Active Streetscape Projects

- Upper Market Safety Corridor Project
- Page Street Neighborway Project
- Market Octavia Living Alleyways Project

Upper Market Corridor Safety Improvements

Project Description: The project scope includes concrete corner curb extensions, or “bulbouts” to shorten pedestrian crossing distances, slow the path of vehicles turning right, and create more sidewalk space.

Complete Streets Scope: greening, lighting, site furnishing, placemaking, decorative crosswalks

Project Status: Substantial Completion Reached in Spring 2023

Page Street Neighborway

Project Description: Five sidewalk extensions (three of which included landscaped rain gardens), as well as the city's first 'raised' decorated intersection Page and Buchanan St.

Project Status: Substantially completed in June 2023

Page and Laguna, NW corner

Page and Buchanan, SW corner

Market Octavia Living Alleys

Project Description: The main objective of the Living Alleys program is to create safe and active public places for people, especially where there are narrow sidewalks or little open space, called living alleys. In doing so, living alleys program will add vitality to the street and to the block. Living alleys are also part of a pedestrian and bicycle network. Living alleys improve pedestrian safety by designing streets as places first and roads second by creating expectations that reinforce slower speeds and more careful driving behavior.
