

## Market Octavia Citizen Advisory Committee Motion

### Page Street Bikeway Resolution

MOTION NO.: 2020-1-27-01

ACTION: The Market Octavia Community Advisory Committee endorses the SFMTA Page Street Bikeway pilot. For people on bicycles and pedestrians, it improves safety and flow on Page Street, which has been identified as a major east-west route in the City's bicycle strategy. It improves traffic flow on Octavia Boulevard. Furthermore, it is consistent with the Market Octavia Area Plan; multiple studies conducted by SFMTA, Planning Department, SFCTA; and, the City's Transit First policy. A pilot is a transportation study and, therefore, it doesn't need further analysis under CEQA.

Haight Street experiences similar traffic congestion and safety issues as Page Street. Therefore, we also encourage similar improvements on Haight Street to protect the Muni Forward Rapid Network deployment and service.
