

SKETCHER

You need to make some drawings of things you see as you walk around. Look carefully, and label up the things you see.

POET

You are a poet (and you didn't know it).

As we walk around the circle, you need to create little miniature poems and similes (it is like a _____) about the things you see.

PHOTOGRAPHER

You are a photographer, and your job is to use the camera to spot interesting things as we walk along. It is up to you to decide what is interesting.

SMELL NOTICER

Your job needs you to do lots of deep breaths and sniffing! As we walk around, you need to think about the different things you can smell. Cities are full of people, and people are experts at creating smells!

SOUND DETECTOR

Your job is to listen extra carefully as we walk around (so other people need to be really quiet!) Think carefully about the hundreds of sounds that are all around us. What can you hear?

PEOPLE WATCHER

Your job is to be extremely nosy about what people are doing. Look around you. Can you see people? Who are they? What do you think they are doing? Why are they here? What are they thinking about?

COLOR WATCHER

There are colors all around us, everywhere we go. As we move from place to place, you might notice that you are surrounded by different colours. What do you see? What catches your eye? You can find some random things as evidence if you like.

FEELINGS DETECTIVE

As we walk around, you need to think about how it makes you feel. Different places make us feel differently inside. What emotions do you feel as we walk around? Use the phrase 'This place makes me feel _____ because _____',

QUESTIONER

Your job is to think of questions everywhere we go.

You need to be extremely curious and look around you carefully. You need to think of questions that you don't know the answer to!

STORYTELLER

We are walking around in our local area – your job, as we walk around, is to *link* what you see to things you have already done. Have you been here before? What were you doing last time? Do you know people here? Do you know any interesting stories about life here?
