

Apply to join San Francisco's Environmental Justice Working Group

Interest Forms due FRIDAY, APRIL 9th at <http://tinyurl.com/ejframework>

Do you live or work in a San Francisco neighborhood that is impacted by pollution, poor access to healthy food, unhealthy or unaffordable housing, and other health challenges? Do you want to get involved in helping the City develop policies to advance healthy communities?

The San Francisco Planning Department, Department of Public Health, and other City agencies are seeking to partner with 7-15 community leaders to join the City's **Environmental Justice (EJ) Working Group** to help develop policies to ensure that all residents and workers can live, learn, work, and play in healthy and clean environments. We welcome all interested people to apply but are prioritizing neighborhoods that have lower income residents and face higher exposures to pollution and other health risks, such as:

- Bayview Hunters Point
- Chinatown
- Mission
- Potrero Hill
- South of Market
- Tenderloin
- Treasure Island
- Visitacion Valley
- Western Addition

This group will hold virtual monthly meetings from approximately May through October 2021. Stipends are available for participants.

If you are interested in joining the EJ Working Group to serve as voice for your community, please submit the interest form by April 9th.

The form also provides an opportunity to indicate if your organization would like to be considered for a Community Engagement Grant to support additional City outreach activities.

There will be an **EJ Working Group Info Session on Wednesday, March 31st, 1-2pm** to learn more about this opportunity and ask questions. Register here: <https://tinyurl.com/EJInfoSession>
