AFTER REVIEWING OUR FINDINGS ON DIFFERENT TOPICS, WHAT RESONATED WITH YOU THE MOST?

- Safety at crosswalks; painting can fade. Need more lighting up crosswalks. Can be hard to see people at night.
- High rent; high income to buy a home. High rent for students.
- Observe ability to live & work here after finishing school. (CCSF Student)
- Housing too high - we need more housing. Apartments.
- Older residents - every family we know has left the city.
- Realize we need a more dense city.
- Rent control.

DID WE MISS ANYTHING? DO YOU HAVE ANY ADDITIONAL CONCERNS?

- Needs a larger transportation component. BRT but also bike safety.
- And ways to consolidate auto traffic.
- Biking can be hazardous, but doesn’t seem safe. Would love to bike with kids.
- Let’s identify a vision for transportation.

HOW CAN WE ADDRESS THESE CONCERNS? WHAT DO YOU THINK COULD IMPROVE THE RICHMOND DISTRICT?

- How can we impact/incentivize landlords to expand housing.

AFTER REVIEWING OUR FINDINGS ON DIFFERENT TOPICS, WHAT RESONATED WITH YOU THE MOST?

I am very unhappy with the neighborhood change by & Alamany & Onondaga Avenue. No consultation was asked for the people who live on those streets! This presentation does not reflect the people who live in this neighborhood. If you want real data, then send surveys to the people who lives in the neighborhood instead of holding this presentation at Presidio Middle School. The planning department was a disappointment to what was done on Alamany & Onondaga. Clearly, the planning department is using these survey results by first influencing the meeting then to use their faulty data to create policy. This is illogical and immoral. This is not an engagement that is highly manipulative. Before you pave over the sidewalks to make it “safer” why don’t you let residents who are accidents involved at each proposed intersections and ask those who live in the neighborhood.

DID WE MISS ANYTHING? DO YOU HAVE ANY ADDITIONAL CONCERNS?

In regards to pushing for rent control, you dare not consult with homeowners. Did you research to see if jobs/tech jobs are leaving SF?!

All the pollsters have failed in predicting 2016 presidency. Learn from it to get valid data. And... how did the trees by the sidewalk get pushed to homeowners? And then there was a vote to put the responsibility back to the city but there was extra work added by giving millions of dollars to take care of trees in school neighborhood. This is corruption and I want to vote for ED Lee next time around.
