WHAT IS A PRELIMINARY HOUSING DEVELOPMENT APPLICATION?

The Housing Crisis Act of 2019, adopted in Senate Bill 330 (2019), added Government Code section 65941.1, and allows an applicant for a housing development project to submit a preliminary application that provides a local agency with specified site information about the project. The zoning, design, subdivision, and fee requirements that will apply to the housing development project throughout the review and entitlement process will be based on the date that the applicant submits a complete preliminary application, including the payment of a permit processing fee.

A 'housing development project' is a project with at least one residential unit, which includes at least two-thirds residential use by floor area, or is transitional or supportive housing. A Preliminary Application can be submitted for projects that require both ministerial and discretionary approvals.

Under Senate Bill 423 (SB 423), a Preliminary Application will also serve as a "Notice of Intent" to file a Project Application, which triggers specified time-sensitive requirements. Please see below for more information.

PROCESS FOR SUBMITTING A PRELIMINARY HOUSING DEVELOPMENT APPLICATION

Once a complete Preliminary Application is submitted the zoning, design, subdivision, and fee requirements in effect as of the date of submittal will remain applicable to the project for the duration of the review and entitlement process, provided that the applicant satisfies all of the following:

- The submitted Preliminary Application contains accurate information. The Planning Department may require a revised Preliminary Application if the original application includes inaccurate information.
- The applicant must submit, and the department must accept, a complete Project Application (PRJ) within 180 days of submittal of a Preliminary Application.
- The project does not increase by more than 20 percent either the number of units or total square footage indicated in the Preliminary Application, except as the project may be revised using the State Density Bonus.
- The project must commence construction within 30 months of site permit issuance.

If the applicant fails to satisfy the above requirements, the Preliminary Application shall expire and have no further force or effect.

TRIBAL CONSULTATION FOR SB 423| AB 2011| SB 4 PROJECTS

Certain state housing laws require consultation with California Native American Tribes that are traditionally and culturally affiliated with the geographic area in which the project is located.

- For projects seeking approval under the provision of SB423 (Government Code Section 65913.4), an applicant is required to submit a Preliminary Application, which will serve as a Notice of Intent to submit an SB 423 Project Application. After receipt of a Preliminary Application, the Planning Department will notify these tribal groups of the Preliminary Application within 30 days. Within 30 days of the date of notification, a representative of the tribal group may request a scoping consultation with the Department. The consultation may include discussion concerning the identification, presence, and significance of Tribal Cultural Resources (TCRs), the significance of the project's impacts on TCRs, and, as warranted, measures and alternatives to protect or reduce impacts on tribal cultural resources. If a scoping consultation is requested, Department staff will coordinate with the requestor to develop mitigation measures, which will be attached to the approval as conditions of approval. If the project sponsor does not agree to these measures, or the sponsor and requestor cannot agree on a set of measures, then the project is not eligible for that ministerial approval program. A local agency may not accept a Project Application under SB 423 until Tribal consultation is complete.
- Projects seeking approval under AB 2011 (Government Code section 65912.100 et seq.) and SB 4 (Government Code section 65913.16) require Tribal Notification for projects located on vacant sites. In San Francisco, a vacant site is:
 1. Any undeveloped parcel containing no existing buildings;
 2. Any parcel that contains only a surface parking lot and no existing buildings, except buildings that are accessory to a surface parking lot use, such as a guard station or kiosk, whether or not said surface parking lot was established with the benefit of a permit; or
 3. For a parcel over 15,000 square feet in size that contains a surface parking lot use, the site may include structures that are accessory to a surface parking lot use, such as those supporting General Advertising Signs, and a building that does not exceed 800 square feet in building area.
- AB 2011 and SB 4 projects may not be located on sites that contain tribal cultural resources that could be affected by the development and that cannot be mitigated.

PUBLIC HEARING FOR SB 423 PROJECTS IN CERTAIN NEIGHBORHOODS

- The Planning Commission shall hold a public meeting to provide an opportunity for the public and the local government to comment on the development if the development is located within a census tract that is designated either as a moderate resource area, low resource area, or an area of high segregation and poverty on the most recent "CTCAC/HCD Opportunity Map" published by the California Tax Credit Allocation Committee and the Department of Housing and Community Development.
- The Planning Commission will hold a required public meeting during a [regularly scheduled Planning Commission hearing](#) (generally, Thursdays at 1pm). This informational hearing will be scheduled within 45 days of submission of this application. If the City does not hold a public meeting within 45 days, the project sponsor shall hold a public meeting before submitting a Project Application.

Note that the City may impose the following requirements even when a Preliminary Application is on file:

- Development impact fees, application fees, capacity and connection fees, or other charges may be annually adjusted based on a published cost index.
- Requirements necessary to avoid an adverse impact to public health or safety, or to avoid or lessen an impact under CEQA may be applied.

Projects may submit a new Preliminary Application at any time, in which case the requirements in effect at that time shall apply.
